KENTUCKY CONFERENCE

OF THE METHODIST EPISCOPAL CHURCH NOW IN SESSION AT THE THIRD STREET M. E. CHURCH.

Conference Opened Yesterday Morning by Bishop W. F. Anderson of Cincinnati—Mid-day Banquet Yesterday a Most Delightful Affair.

(By J. H. Richardson)

The sentiment is being freely expressed by the members of the Conference now in session that this will be one of the most successful sessions of the conference in its history. In point of attendance it sure is a record breaker. If you don't believe it just ask Rev. Hunt or his right hand man, Prof. C. S. Dale, who are looking after the placing of the visitors in homes. So fast did they arrive yesterday that some of the boarding houses to which preachers are being sent hollered "Enough." Many more homes than open their doors yesterday when a new appeal was made for homes. Let 'em come! Mayville will stand the test.

The following names registered during the day:

H. D. Cooper, Russell.
Thomas H. Conroy, East Point.
S. B. Gouby, Gallip.
T. M. Anderson, Barbourville.
J. F. Ruggles, East Mayville.
J. T. Martin, Harlan.
N. H. Young, Corbin.
M. M. Roundtree, Centerville.
T. L. Stotter, Germantown.
W. C. Stewart, Cynthiana.
J. W. Cantrell, Leitchfield.
J. R. Wyatt, Rockhold.
I. B. Pfaff, Rockhold.
A. N. Perkins, Jellico, Tenn.
O. H. Callis, Wilmore.
L. O. Logsdon, Owensboro.
S. A. Lighton, Ontario.
John Cheap, Saltlick.
C. W. Barnes, D. D., Covington.
J. C. Everman, Monaca.
Newton King, Cynthiana.
Stanley Williams, Barbourville.
C. A. Bromley, Barbourville.
J. L. Burton, Earlington.
E. H. Bullock, Corbin.
W. H. Crain, Butler.
M. M. Carmichael, College Hill.
J. C. Landrum, Hopkinsville.
James A. Phillips, Scottsville.
W. B. Dunkum, Hardinsburg.
S. C. Chapman, Gradyville.
V. E. Fryman, Grant.
J. D. Haggard, Greenup.
R. T. Harper, Hartford.
J. F. Hopkins, Sardis.
H. W. Landreth, Deerlick.

President Ezra T. Franklin of Union College arrived yesterday and is busy looking after the interests of the college. He is a guest of Prof. C. S. Dale.

Rev. E. Deets Pickett of Washington, D. C., visited the conference yesterday. He gave an address last evening in the interest of the Church Temperance Society.

Rev. N. H. Palmer, D. D., Superintendent of the Anti-Saloon League was a visitor at conference yesterday and gave a short message of greeting last evening. He will probably be heard again today.

Promptly at 8:30 a. m. Bishop Anderson called the conference to order and as it is the custom at almost every opening of an annual conference the first thing after the sound of the Bishop's gavel is the singing of the old conference hymn the first verse of which is as follows:

"And now we yet alive,
And see each other's face
Glory and praise to Jesus give,
For His redeeming grace."

Following the singing the Bishop read the fifth chapter of the book of Revelation and assisted by the District Superintendents administered the Sacrament of the Lord's Supper. During the administration of this sacrament the Bishop impressed upon the conference the beauty and impressiveness of the service and urged the conducting of this service in the way laid down in the discipline.

Following the Lord's Supper came the organization of the conference. Rev. O. J. Carder, Secretary of the last Conference called the roll. Fifty-four members and fifteen probationers answered present. At this juncture motion was carried instructing the secretary to write letters of sympathy to all ministers kept away from conference by reason of sickness in the family.

O. J. Carder and J. M. Lital were placed in nomination for secretary. Rev. Carder was elected by a large majority. This is a high compliment to Rev. Carder who has served the conference for several years most efficiently. The secretary chose as his assistants Revs. G. N. Jolly, D. D., T. M. Anderson and T. B. Roberts.

J. M. Lital and W. H. Muncey were nominated for statisticians. Rev. Lital was elected. He chose his assistants, H. E. Trent, W. H. Muncey, L. O. Carder, N. H. Young and A. F. Felts.

Rev. F. W. Harrop was nominated and unanimously elected treasurer for the twentieth time. He selected as assistants, T. B. Ashley, W. C. Stewart and G. N. Parsons.

Rev. E. R. Overley then read the list of standing committees.

Bishop Anderson introduced Revs. T. Howard Jones of the New York Conference, James M. Bennett of the West Ohio Conference, and T. B. Roberts of the North East Ohio Conference, all of whom have transferred in to the Kentucky Conference during the year.

Rev. J. T. B. Smith of Chicago was introduced and addressed the conference in the interest of the Board of Conference Claimants.

The fourteenth disciplinary question was the character of each preacher examined? W. H. Davenport, Superintendent of the Ashland district, was called, his character was passed and he read his annual report which showed the work of the church in this the Ashland District to be in good condition. He reported something like 500 conversions, 300 additions to the church and good work being done throughout the district. The Third Street Church of this city is in this district. The report for this church will be the best on record. The gifts to the benevolent causes of the church will show an increase of nearly one

hundred per cent. This church has had its best year under the efficient pastorate of Rev. Hunt. The congregation and community in general are hoping for his reappointment to Mayville. The next man up was Rev. E. R. Overley. Nothing against him and he gave his report of the Covington District. Both reports were very interesting, showing the devotion of these two Godly superintendents to their work.

The next order was the memorial service. Rev. E. L. Shepard presided. The only minister dying during the year was W. H. Childers. Mrs. H. C. Northcott died during the year. The daughters of two ministers, Dr. Eason and J. B. Perryman, died during the year. Those who spoke in this service were S. F. Kelly, Dr. Eason, Dr. Jolly, O. J. Carder and Bishop Anderson.

The conference then adjourned for noon hour.

One of the most pleasing features of the day was the noon lunch that was served so nicely by the ladies of the church. The other pastors of the city and Mr. Carl Dods, Secretary of the Chamber of Commerce were present by special invitation. After partaking of the lunch, Rev. Hunt as master of ceremonies introduced Secretary Dods who welcomed the Conference on behalf of the Chamber of Commerce and the city of Mayville. He had prepared in mimeograph form a splendid description of Mayville, her various interests and those of the surrounding county, a copy of which was given to each visitor. Rev. W. B. Campbell welcomed the Conference on behalf of the Ministerial Association of the city. Rev. F. W. Harrop gave the response for the Conference, and anybody who knows Rev. Harrop can guess the kind of speech. He assured the conference that he had arranged with the mayor, police judge, chief of police and the force, that the preachers should not be molested nor brought into police court during their stay in the city. The speaker paid a fine compliment to Mayville and her people. He said that when he grew old enough to be retired he wanted to come back to Mayville to live and that he didn't care whether he ever died and went to heaven or not—Mayville was good enough for him. It was a very happy speech and certainly put the conference in good humor. The closing speech was given by Bishop Anderson. The good Bishop demonstrated the fact that he is a pretty good after dinner speaker. For awhile he kept the conference in a roar with his funny stories. He closed his address with a strong plea for faithfulness in the work of the Gospel, saying that there never was so important an ago as the present one.

During the afternoon the various committees were in session. At 4 p. m. the Bishop addressed the Conference on evangelism. Rev. Henry H. Meyer, representing the Sunday School interests then gave a powerful address on Sunday School evangelism. Meyer is a forceful speaker and made a strong impression on the conference.

The evening session was in the interest of the Freedman's Aid Society which was represented by the Hon. C. L. Swain of Cincinnati, and the Church Temperance Society which was represented by Rev. E. Deets Pickett.

Following is the program for today and tomorrow:

WANTED

FIFTY MASON COUNTY FARMER BOYS, BETWEEN THE AGES OF 10 AND 18 YEARS TO JOIN OUR

MASON COUNTY HEIFER CLUB

Believing that the future progress and prosperity of Mason County depends upon the continuing development of its Agricultural interests and the business efficiency of our future Farmers, with the hope of being able to aid in those directions, we have decided to organize a Heifer Club for the Farmer Boys of Mason County.

ABOUT THE FIRST OF SEPTEMBER, 1917, we are going to purchase fifty Grade Shorthorn Heifers, about eight months old and weighing about 600 pounds, which we will distribute among the first fifty Mason County Farmer Boys, between the ages of 10 and 18 years, that apply for and agree to care for same and that can execute a bankable note covering the cost of the Heifer; which note shall be payable in the fall of 1918.

The Heifers will be bought by expert cattlemen connected with the Extension Service of the State College of Agriculture and be distributed among the boys by lot. Each boy will be given the same chance to make good, and required to become a member of the Mason County Boys' Agricultural Club and to care for the Heifer under the directions of the County Agent; to have the Heifer bred to a pure bred Shorthorn Bull, this fall, and to have her and her offspring ready for public exhibition and sale in the fall of 1918.

You will not be expected to put up a cent of money now; but, you must properly care for the Heifer and pay for it later and all the increase and profit will be yours.

About \$100 will be given away in prizes to the boys getting the best results, with their Heifers, at the exhibition to be held in the fall of 1918.

For full particulars call at Bank or see Mr. E. P. Boyd, Jr., County Agent, at once, as we want to close entries to the club by September 1st.

We are anxious to help Boys that are willing to work and learn.

HELD TO GRAND JURY

Clarence White, colored, was tried in Police Court yesterday on a charge of cutting and wounding another with intent to kill. He was held over to the September term of the Mason County Grand Jury and his bond placed at \$500. White is the fellow who carved up John Yates, another negro, with a razor, a little over a week ago.

NO DOOZE SOLD ACROSS THE BAR

The Ripley Bee says: When the new saloon opened in Huntington township two miles east of Aberdeen last Wednesday, a new departure was made in that business. This saloon opens at 7 o'clock a. m. and closes at 6:30 p. m. No keg beer is sold, nor whiskey by the drink. You can buy whiskey or beer only in bottles and nothing is allowed to be drunk on the premises. Charles M. Bradford, the proprietor, states that there has been no trouble of any kind at the place since the opening.

All Union Barbershops will close at noon Labor Day.

PARKER GRINES, Secretary.

HELD TO GRAND JURY

Mr. and Mrs. Charles Ratcliff and family left yesterday for Evansville, Ind., for a short visit and from there will go to Los Angeles, Cal., to make their future home. Ratcliff has for some time been manager of the electric shop of the Mayville Gas Company.

HECKNER-McLAUGHLIN

Mr. Joseph R. McLaughlin, aged 32, of Cincinnati, and Miss Grace Beckner, aged 23, of this city, were married in the County Clerk's office yesterday afternoon by Rev. J. D. Haggard of Greenup, one of the visiting ministers to the Kentucky Conference.

AMERICAN RED CROSS

The American Red Cross has perfected plans to care for American prisoners who may be captured and held in German prison camps. A Prisoners' Relief Committee has been organized at Bern, Switzerland, under the supervision of Ellis L. Dresel, of the American Legation. Mr. Dresel served from the outbreak of the war in 1914 up to our breaking off diplomatic relations as an attache of the American Embassy at Berlin, where his duties include relief work for men of the Entente nationalities in German prison camps.

Today only about one hundred American prisoners are held in Germany. Most of these are civilians taken off American merchantmen that have been sunk by Teuton submarines. More recent arrivals in the prison camps had served as gun crews, since the arming of our merchant ships.

Speedy provision for their relief and for those who may be taken prisoner is necessitated by the German policy of giving their prisoners of war food totally inadequate to keep men in good health. The extremely high death rate among Russian, Serbian and Roumanian prisoners in Germany and Austria (30 per cent in the case of Roumanians) has been largely due to the inability of Russia and the Balkan states to organize the rationing of prisoners of their nationalities from their home countries.

A recent cable dispatch from Paris tells of a French soldier just back from a German prison camp and in the last stage of tuberculosis. This soldier was one of a battalion of a thousand young and healthy men captured in a body, early in the war. More than fifty per cent of the number are now dead, or have been returned to France, via Switzerland, as insurables.

Malnutrition, no less than unsanitary conditions, produces these results. British, Canadian and Australian prisoners of war in Germany now depend exclusively upon food shipped to them from London, and generally give the prison camp ration to prisoners of other countries, who are, as a rule, less well provided. Bread is already being dispatched from Bern to the Americans in Germany, and arrangements have also been made for transmitting letters and money from their families and friends in this country.

Thus far only bread has been supplied by the Bern Committee of the American Red Cross. Assorted food parcels and clothing will also be forwarded soon. In the meantime the Central Prisoners of War Committees of London are acting on behalf of American prisoners in Germany, sending them such foods as the Committee regularly dispatches to British and colonial prisoners.

By arrangement with Germany, these food parcels are sent to the prisoner three times a fortnight. The parcels supplement the bread which is also regularly supplied, and each of them contains ten pounds of meat, butter, sugar, jam, coffee or tea, salt, rice, and dried fruit. The American Red Cross is forwarding to Bern stocks of the same foodstuffs, as well as cheese, evaporated milk, codfish, and mixed biscuit. Tinned goods cannot be sent to prisoners, for Germany has made over the tin containers as hand grenades.

Ninety-five percent of the British packages sent into Germany, with end receipts to be mailed back by the prisoner, have been duly receipted for. The American Red Cross, also, will enclose postal cards, as a means of making sure that American prisoners do actually receive the food parcels.

France is certainly not "bleeding to death" very fast if, as officially announced, she has 3,000,000 men under arms and is holding 356 miles of battle front while the English are holding 85 miles.

GET FIRE DEPARTMENT IN DOUBLE QUICK TIME AT CAMP SHELBY

Hattiesburg, Miss., August 27—A record in the way of organizing a fire fighting force was being set a few days ago, when Capt. Lewis E. Moore, of St. Louis, Mo., Quartermaster, United States Reserve, got busy at Camp Shelby, after receiving orders from Maj. W. J. Howard, in charge of camp construction, to perfect a fire department. Within five hours after receiving the instructions Capt. Moore reported a complete fire fighting organization.

Capt. Moore, who comes to Camp Shelby from civilian life, got in touch with the chief of the fire department at Hattiesburg, and after a short conference was given eight trained fire fighters. Others were employed and in a few hours the fireman were at Camp, ready to stop any blaze that might occur. More than 300 large barrels and 600 buckets were purchased, and stationed at different points about the great camp. These other crude devices, supplemented by several chemical appliances, will serve for the present at least.

Night and day shifts are maintained in the Camp Shelby fire department, and every precaution against fire is being taken. Capt. Moore wired manufacturers for chemical equipment, and it was received within 48 hours. The equipment now on hand will suffice for temporary needs until permanent apparatus arrives.

Capt. Moore has appointed an inspector who keeps men busy cleaning up debris that might prove dangerous from a fireman's standpoint.

In speaking of the site of the big camp Capt. Moore said:

"I think the site is one of the most ideal that has been selected. I have visited several others lately. This camp undoubtedly is one of the best in the country. There are no mosquitoes at camp and it is a fact that I have had to sleep under blankets every night since my arrival."

SCHOOLS FOR SOLDIERS

Many moonlight schools for soldiers are now in session in the various school districts in the State and a number of men are under tutelage in their homes preparatory to their entry to the colors. Those called in the first draft are having first attention. Volunteer teachers are putting in extra hours with these. Some of the lessons for beginners are as follows:

Lesson No. 1.

I go.
 I go to war!
 Do you go?
 Yes, I go to war.

Lesson No. 2.

Some will fight with hoe.
 Some will fight with gun.
 All will fight with gun or hoe.
 I will fight with gun.
 You may fight with hoe.

Lesson No. 3.

See the flag!
 It is our flag!
 It never knew defeat.
 Why? Because it has always stood for right.

THOMPSON IS OUSTED

Chicago, Ill., August 28—Mayor Thompson no longer is a member of the General Committee of the Chicago Branch of the National Security League.

The Nominating Committee, at the annual election of officers of Executive and General Committee, held at the Union League Club today, failed to present his name.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by P. J. HOME-READING COURSE FOR CITIZEN-SOLDIERS

(Issued by the War Department and all rights to reprint reserved.)

This course of thirty daily lessons is offered to the men selected for service in the National Army, as a practical help in getting started in the right way. It is informal in tone and does not attempt to give binding rules and directions. These are contained in the various manuals and regulations of the United States Army, to which this course is merely introductory.

LESSON NO. 16.

STAFF BRANCHES OF THE SERVICE—I.

(Preceding Lessons: 1. Your Post of Honor. 2. Making Good as a Soldier. 3. Nine Qualities of a Soldier. 4. Getting Ready for Camp. 5. First Days in Camp. 6. Cleanliness in Camp. 7. Your Health. 8. Marching and Care of Feet. 9. Your Equipment and Arms. 10. Recreation in Camp. 11. Playing the Game. 12. Team Work in the Army. 13. Grouping Men into Teams. 14. The Team Leaders. 15. Fighting Arms of the Service.)

In addition to the three fighting arms—infantry, cavalry, and artillery—there are nine branches of the Army known as the staff corps, and department. In general their first and most important duty is not fighting, but assisting those who do fight, by providing them with everything they need. Very few people outside this Army have a clear idea of the organization of these nine branches or of their duties.

Following are the staff corps and departments: General Staff Corps; Adjutant General's Department; Inspector General's Department; Judge Advocate General's Department; Engineer Corps; Signal Corps; Medical Department; Quartermaster Corps; Ordnance Department.

The first four of the staff branches just named are composed entirely of experienced and capable officers. The other five include enlisted men as well as officers.

The Brains of the Army
The business of the General Staff Corps is to study military problems of all kinds, to work out the best solutions, and to report to the Chief of Staff of the Army. It is often called the "brains of the Army," and it would be hard to give a better description in a few words. The War College div-

sion of the General Staff Corps is devoted to the study and investigation of new and special problems.

In time of war some of the members of the General Staff Corps serve with the generals in the field and assist them in solving and handling their various problems. While on this duty the senior General Staff officer acts as chief of staff of the commanding general. This position is not to be confused with that of Chief of Staff of the Army, who has general supervision of all military operations, both at home and in the field.

The Adjutant General's department has charge of all of the records relating to officers and enlisted men, issues orders to carry out the wishes of the commanding officer, and carries on military correspondence. In every battalion and regiment one of the officers of the line is detailed as adjutant to perform for his organization the duties just named.

Military Observers

The Inspector General's department observes everything that goes on and reports on the skill and general fitness of officers and troops. At intervals an officer from the Inspector General's department reviews the men in each organization; examines their arms, equipment, and supplies; looks over all records showing expenditures of money or distribution of property; and sends in a complete report, pointing out the good and bad features of the organization. In this way the higher officers are kept informed at all times as to the state of affairs in every section of the Army.

The Judge Advocate General's department is the legal department of the Army. It prepares opinions on legal questions for the guidance of other officers or departments; serves as the representative of the law in military courts, and keeps the legal records of the Army. Closely related is the office of Provost Marshal General, who has charge, among other things, of enforcing the selective-service law.

Unless you work your way up to a commission, it is not likely that you will come into touch in any direct way with any of the four staff departments just named. Their duties are reviewed here simply because it should be interesting to you to know how the great Army machine is kept well oiled and running smoothly even in periods of great difficulty.

The Engineer Corps

You will frequently see the other five staff branches in operation, however, throughout your Army life.

The Corps of Engineers are the skilled workmen of the Army. They lay out permanent camps and entrenchments; build and repair military roads, railroads, and bridges; dig ditches and mines under the enemy's trenches; and take care of other work which requires technical skill of this character.

Theoretically the Engineer Corps is not one of the fighting arms; but in practice they are often called upon to fight and to perform dangerous duties. They may build bridges or dig entrenchments, for example, under the enemy's fire. In modern warfare the engineers play a highly important—and often an heroic—part.

The Signal Corps is the message-

bearer of the Army. It carries information and orders from one headquarters to another. It is today as essential to the conduct of a great army as the telephone is to the conduct of a great business.

The Signal Corps

At one time the Signal Corps transmitted messages chiefly through the use of flags, lanterns, heliographs (mirrors so arranged as to reflect and flash rays of light,) and the like. Then came a period during which it was chiefly concerned with laying down and operating telegraph and telephone lines; and this is still one of its most important duties. However, the wireless is becoming more and more important, even on the battlefield.

A first-class signalman is expert with all these various methods. He is also a good horseman, since he must be able to move about rapidly. His duties may frequently carry him into the battle line and into other dangerous positions, and he must know how to defend himself; his chief weapon is the pistol. There is no branch of the service in which a man's intelligence, initiative and technical skill count for more.

The Signal Corps of the American Army includes the aviation section, which has grown to be of such vital importance. The best-known types of air planes are the scouting machine, which goes out to get information by flying over the enemy's lines; the bombing machine, which goes out to do as much damage as possible to the enemy's military works; and the swift fighting machine, which attacks enemy air planes and protects the slower scouting and bombing machines. The work is dangerous, but partly for this reason is especially attractive to men of high intelligence and daring.

SOMETHING ABOUT CIVIC DUTY

How many times have you had the thought: "There is something that the Chamber of Commerce ought to attend to?" And how many times have you wanted to see what the Chamber of Commerce was going to do about it?

You never considered that it was something for you or your neighbor to attend to, but took it for granted that as it was a matter affecting the community it was properly the duty of the community to take it up. That is correct. There are, however, other sides to the question.

Let us consider first, what the Chamber of Commerce really is. Isn't it the business community and are you not a part of the business community? Are you a part of the Board of Commerce? If not, shouldn't you be part and parcel of the civic organization of the community?

Perhaps you do not like the way things are done, or possibly you think that nothing is accomplished. Whose fault is that? Of course you realize that the civic organizations of a community has to do whatever the community makes it do, because there could be no Board of Commerce except that it was composed of the business men of the community.

If you are a representative business man that you are a member of the Chamber of Commerce, and it represents the ideas of yourself and other representative business men of the community. That is, it does so represent.

JUDGE FOR YOURSELF

Which is Better—Try an Experiment or Profit by a Maysville Citizen's Experience.

Something new is an experiment. Must be proved to be as representative.

The statement of a manufacturer is not convincing proof of merit. But the endorsement of friends is. Now supposing you had a bad back, a lame, weak, or aching one, Would you experiment on it? You will read of many so-called cures.

Endorsed by strangers from far-away places.

It's different when the endorsement comes from home. Easy to prove local testimony. Read this Maysville case: Ben. P. Fleming, constable of Mason Co., 217 E. Lee St., Maysville, Ky., says: "I have used Doan's Kidney Pills off and on for several years, getting them at Wood & Son's Drug Store, and they have been of great benefit. At times, my kidneys have been out of order, and I have suffered from a dull, constant ache through the small of my back. The kidney secretions have been irregular in passage, too. A box or so of Doan's Kidney Pills have never failed to relieve me of the complaint in a short time."

Mr. Fleming is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Fleming had—the remedy backed by home testimony. 60c all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

sent you if you are doing your duty.

Your employees in your business represent you, do they not, and if any of them violates your instructions, he quits, you or they? Therefore if the Chamber of Commerce doesn't do things to suit you and others who belong to it, the reason must be because the membership doesn't exert its authority to have things done.

On the other hand the Chamber of Commerce has a long list of accomplishments to its credit. It is known as an organization that gets things done for the good of community. There are grumblers of course, but the majority of these are on the outside. If they would come in and give the organization the benefit of their ideas and their support, it would undoubtedly be a still stronger organization. That is, providing their ideas had any value.

One other point the Chamber of Commerce has only the eyes of its members to see with. If there is something to be done it must be brought to the attention of the Chamber by one or more of the members if the best and quickest results are to be obtained.

And further, the membership needs to be the largest that the community can provide. Members provide the income that pays for the work of the Chamber. If you would have more work done, help to increase the membership, and by so doing enable the Chamber to get more things done for Maysville. That means, too, that more benefits will be coming to you.

The easier it is to reform a man the oftener you have to do it.

And there's many a penitent man in the penitentiary.

RUSSIAN TROOPS

Leave Trenches To Tendon Foes—Disaffection in Russian Army Is Said Not Yet to Have Been Eradicated — Loyal Troops Forced to Give Way to Enemy.

New York, August 29.—The disaffection in the Russian army which resulted in the forced evacuation of the greater part of Galicia and Bukovina by still loyal troops apparently has not been eradicated although a stiffening in the Russian defense in Galicia, Bukovina and Rumania recently had indicated that the Russians were making no more voluntary retrograde movements.

Following Tuesday's reports of the falling back by the Russians in eastern Bukovina toward the Bessarabian frontier, comes the news that disloyal to their colors, the Russians in southern Moldavia, from Pokshian northward have quit their trenches and fled in disorder.

The enemy by reason of this defection has materially bettered his positions for an advance eastward and at last accounts was continuing to develop his success.

The Berlin war office says the Russians have suffered heavily in men killed or wounded and have lost more than 1,000 men made prisoner and three guns and fifty machine guns. In addition they have given up splendid vantage points guarding the approaches to the Sireth river, the crossing of which by the enemy, taken in connection with an invasion of Moldavia from Bukovina, undoubtedly would result in disaster to all Moldavia and also prove a valuable asset for a Teutonic advance toward Russian territory north of the bend in the Danube.

Meanwhile M. Korensky, the Russian prime minister, has referred to the closing session of the conference at Moscow the determination of the provisional government to protect the results achieved by the revolution and declared that no counter revolution attempts will be countenanced.

GOVERNOR WILL NOT PARDON PAIRN BANKER

Frankfort, Ky., August 28.—Governor Stanley made it plain today that there is no hope of his pardoning George Alexander, the Paris banker, now serving a term in the reformatory for wrecking the bank house of Alexander & Co. Representative Harry J. Meyers, of Covington, and Thomas Clay, of Bourbon, called on the Governor in regard to a pardon for Alexander. The Governor was armed with the Executive Journal, containing a copy of the statement he gave out when the Alexander pardon application first was presented to him early in his administration. The Governor frankly resented a report that had gained circulation that he has promised to pardon the banker. Alexander is in bad health and spends much of his time in the prison hospital, chiefly on account of a disability, which an operation previous to his incarceration had failed to entirely cure. He is not yet eligible to parole.

ENLISTED MEN

Of Draft Army May Qualify For Commissions—Officers' Schools Will Be Established at Camps.

Washington, August 29.—Enlisted men of the National Army, National Guard and regular army will be given every opportunity to fit themselves for commissions, it was learned today. This is in line with the fixed policy of the Government to take no more officers or officer candidates from civil life after the second series of officers' training camps, now in progress, has been completed. Thereafter all additional officers needed will be found in the ranks of the various branches of the war army.

To carry out this plan it has virtually been decided to establish an officers' school at each of the divisional training camps. Men from the ranks, who show special qualifications, will be sent to these schools. With staffs of French and British officers of experience on the firing lines on duty at each camp as advisers, an unusual opportunity for lecture courses will be presented.

The divisional officers' camps will make the third series of such camps arranged by the War Department to provide men to command the enormous forces being raised for the war. No line commission will be granted to men from civil life after they are started, except that a few men who were denied admission to the other camps through loss of their orders in the mail or some other mischance, may be given an opportunity in the third series.

Secretary Baker pointed out today, in reply to a question as to whether the European divisional army organization adopted for the war would be continued after the restoration of peace, that with the exception of the officers of the regular army and a few men of the old regular enlisted force, whose enlistments may not have expired at that time, the entire war army will pass out of existence. There is no provision of law for continuing it beyond the end of the war.

The question of establishing a continuing military policy of universal service has been debated to some extent recently. The impression prevails among many members of Congress, however, that it would be unwise to take up this question now. If the war is long, it may become necessary to provide for the registration of new classes which reach the military age of the Selective Service Bill each year, and possibly, also, to exempt men now registered, but who are exempted from service.

EARLY MORNING BLAZE

At the Child's Cigar Factory Causes Loss of Several Hundred Dollars — Not Known How Fire Started.

Fire at 1 o'clock this morning in the Child's Cigar Factory on West Second street was discovered by Miss Catherine Schwartz, who resides next door. The fire department was immediately called and after breaking in the door the blaze was quickly subdued with water and chemicals.

The fire was confined to the stock room in the rear of the building, where about 50,000 cigars and a large amount of tobacco was stored. The room was badly damaged and the tobacco and cigars almost a total loss. The building was fully covered by insurance while the tobacco and cigars were only partially covered. The cause of the blaze is unknown.

Had not the fire been discovered when it was there is no doubt but that there would have been a very big fire, probably wiping out the whole corner.
